   True
4. Fa-Hien, a Chinese traveller, visited India during Samudragupta’s reign.  
   False
5. Skandagupta was the last great Gupta ruler.  
   True

IV. Answer the following questions:

**Question 1.**
Why is Chandragupta I called the real founder of the Gupta Empire?

**Answer:**
Chandragupta I is called the real founder of the Gupta Empire because he was first independent and important ruler of this dynasty. He raised the power and prestige of his empire through conquests and marriages. He assumed the title Maharajadhiraja, i.e., the king of kings. He started the Gupta Era in 320 AD which marked the date of his accession.
Question 2.
Describe the military achievements of Samudra gupta. Which source tells us about him?
Answer:
The most important historical source of information about Samudra gupta is the Allahabad Pillar Inscription which was composed by Harisena. According to the inscription Samudra gupta was a great conqueror and he won a- series of wars in north and south India. He defeated as many as 9 rulers in northern India and 12 rulers in eastern Deccan and southern India. But Samudra gupta did not want to gain permanent possession of his conquests in the south because he knew he could not control south India from his capital. He was happy with the tributes collected from the defeated princes of the south, bringing home large stores of treasure.

Question 3.
Why is Chandragupta II considered the greatest ruler of the Gupta dynasty?
Answer:
Fa-Hien’s account forms the historical source of information about Chandragupta II. Chandragupta II was a great conqueror. His greatest achievement was to destroy the power of the Shaka from Malwa, Gujarat and Saurashtra permanently. He gained control over three important parts of Bharuch, Cambay and Sopara. He also assumed the title Shakari or the conqueror of the Shakas. He was a great patron of art and literature. He had at his court, the famous Navaratnas, the most learned men of his time. Poet Kalidasa was one of them.

Question 4.
What were the religious beliefs of the people during the Gupta period?
Answer:
The Gupta kings were Vaishnavas, but they were tolerant towards all religions. Brahmanism had come to the forefront. The two gods who commanded the worship of the majority were Vishnu and Shiva. Religious sacrifices were performed. Hinduism became the most powerful religion and the Gupta kings gave donations for building of temples. Buddhism no longer received the royal patronage, though it continued to be the second most important religion.

Question 5.
Describe the great progress made in art and architecture during the Gupta period.
Answer:
Art and architecture gained great heights during the Gupta Period. Many temples were built. The temples at Deogarh, Sanchi and Bhittargaon are very famous. The 29 cave temples at Ajanta near Aurangabad in Maharashtra and Bagh in Madhya Pradesh were also built during this period. The walls of these caves were covered with paintings (called murals or frescoes). Two main centers of art were Mathura and Samath. The image of the seated Buddha in a yogic pose is one of the masterpieces of art of this period.
Question 6.
With examples prove that Sanskrit literature reached its peak during this period.
Answer:
The Gupta period is called the Golden Age of Sanskrit literature. Chandragupta II is credited with maintaining Nav-Ratna (Nine luminaries) at his court. Kalidas and Amarasimha adorned his court. Kalidas was the greatest and most famous poet of this period. He wrote Abhijnana Shakuntalam, Raghuvansham, Meghaduta and Kumar Sambhava. Amarsimha wrote Amarakosa, a Sanskrit dictionary. Panini was a great grammarian. Ashtadhyayi, the greatest work on Sanskrit grammar was written by Panini during this period.

Question 7.
Describe the progress made in the field of science during the Gupta period.
Answer:
Scientists, mathematicians, astronomers and physicians flourished in the court of the Gupta rulers. Two well-known mathematicians and astronomers of this period were Aryabhata and Varahamihira. Aryabhata said that the earth moves round the sun and at the same time it moves on its axis. The books authored by Aryabhata are Aryabhatiya and Suryasidhanta. Varahamihira wrote Brihat Samhita, an Encyclopedia on Astronomy. Indian mathematicians knew the use of zero. The Indians also used the decimal system.

Question 8.
Write a short note on Gupta administration.
Answer:
The Gupta empire was divided into provinces. These provinces were further divided into various districts. There were district councils which helped the provincial governors. The provinces were known as Bhuktis and the districts were known as Vishayas. Each district was divided into villages called gramas. Each Bhukti was placed under the charge of an Uparika and each Vishaya under a Vishayapati. There were many officers who assisted the king in his work. The provinces were under the charge of princes. They were assisted by officials called Kumarmatyas. The villages were looked after by Gramapati.

Question 9.
With appropriate examples prove that the Gupta period has been rightly called a ‘Golden Age’.
Answer:
The Gupta period is known as “Golden Age of Indian History”. The rule of the Gupta kings lasted for more than two hundred years. India made progress in almost every field under the Gupta kings. This period saw considerable achievements in the field of Indian culture especially in the areas of art, architecture and literature. Remarkable advancement also took place in the field of science, medicine and metallurgy. Peace and prosperity prevailed in the empire.
