18. Read the following passage and **make notes**. Add a suitable title. (1 × 4 = 4)

In December 2019, the novel coronavirus called SARS-CoV-2 had resulted in a respiratory illness called COVID-19. 'CO' stands for corona, 'VI' for the virus. 'D' stands for disease '19' is the year in which it broke out. This virus was unknown before its outbreak in Wuhan, in China, in December 2019. Coronavirus is a family of viruses that may cause disease in animals and humans. It causes respiratory infections ranging from the common cold to more severe diseases. India has approved seven vaccines. It's currently using only three vaccines, Covishield, Covaxin prepared by Bharat Biotech and Sputnik V. While we are still learning how COVID-19 affects people, aged people and people with pre-existing medical conditions like high blood pressure, heart disease, lung disease, cancer etc. appear to be at greater risk than others.

can reduce the chances of being infected with COVID-19 by taking simple precautions. We should clean our hands with sanitiser or wash them with soap because this action kills viruses on our hands. Everyone must maintain distance from others. Once contaminated, hands can transfer the virus to eyes, nose or mouth, so avoid touching eyes, nose and mouth. Droplets of spread the virus. So distance needs to be maintained. Good respiratory protects the people around you from viruses such as cold, flu, and . Therefore masks need to be worn.

Choose for **ANY EIGHT** of the following words:

(8 × ½ = 4)

- |               |                |
