# Assam University UG Admission through CUET

Assam University UG Admission Process 2023 through CUET will commence after the declaration of CUET results 2023. The CUET UG 2023 admit card has already been released by NTA. According to the schedule released by NTA, CUET UG 2023 will be conducted from May 21 to May 31, 2023.

Common University Entrance Test or CUET, initiated by National Education Policy (NEP) 2020 is undoubtedly a significant move for higher education in our country. This move aimed to lessen the burden of the cut-off marks in getting admission to the central universities of India. Conceptualized by NEP 2020 and conducted by National Testing Agency (NTA), this entrance exam has turned out to be a perfect getaway to undergraduate admission. Assam University has also embraced this change.

Previously, only 7 central universities took part in the CUET exam and the others thought it might diminish the quality of admissions. But, according to UGC, Common University Entrance Test will not do that from any concerns. It won't devalue the relevance of the board exam. Rather, it will offer a single-window platform for the students of all boards to compete. On the other hand, it will help the universities to assess the candidates' potential through a single exam score instead of evaluating them by multiple tests.

Out of 54 Central Universities, 44 universities have decided to take part in the CUET exam for the academic session 2023-2024 including Delhi University, Banaras Hindu University, etc. 11 State universities, 8 deemed universities and 18 private universities are also going to participate in the CUET 2023exam. Here in this article, we have brought together Assam University UG Admission through CUET-related information.
